WORK EXPERIENCE

AVALYTICS

Jan 2026 – Jun 2026

Software Development Engineering (SDE) Intern

- Designed and developed scalable RESTful backend APIs using Express.js and Node.js.
- Implemented secure user authentication using JWT and Role-Based Access Control (RBAC).
- Developed responsive user interfaces using React.js and Material UI (MUI) components.
- Conducted database indexing and backend testing, reducing data fetch latency by **40%**.

Defence Research and Development Organisation (DRDO)

Jun 2025 – Aug 2025

Project Intern

- Developed and trained human motion analysis deep learning models using Python and PyTorch.
- Preprocessed dataset and analyzed training metrics to reach 92% gait phase classification accuracy.
- Authored technical project documentation and collaborated across teams to ensure timely delivery.

PROJECTS

GramSetu – Smart Gram Panchayat Management System

Python, Django, Django REST Framework, React.js, PostgreSQL

- Developed a full-stack digital services platform for local governance using a Django backend.
- Built robust, clean, and maintainable RESTful APIs utilizing Django REST Framework (DRF) and secure JWT authentication.
- Leveraging Django ORM, designed an optimized PostgreSQL relational database structure for reliable data persistence.
- Created highly responsive citizen and administrator web interfaces using React.js, improving system accessibility.

FoodTrack – Inventory & Order Management System

Python, Flask, MongoDB, React.js, PyTest

- Architected a modular Flask-based web application to track active sales, real-time inventory metrics, and automated alerts.
- Formulated efficient CRUD flows and system endpoints with Flask routing, ensuring low latency data transmissions.
- Written automated backend unit tests utilizing PyTest to ensure high code coverage, reliable functionality, and easy debugging.
- Managed data storage and fluid schema layouts by integrating PyMongo collections for quick data retrieval.

SKILLS

- Languages:** Python, Java, JavaScript, C, C++
- Frameworks & Backend:** Django, Django REST Framework, Flask, Node.js, Express.js, Spring Boot
- Frontend:** React.js, HTML5, CSS3, Material UI
- Databases:** PostgreSQL, MongoDB, MySQL, SQLite
- Tools & Testing:** Git, GitHub, Agile/Scrum, Linux, AWS (Basic)
- Core Subjects:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EDUCATION

Sanjay Ghodawat University, Kolhapur

Aug 2022 – Jun 2026

Bachelor of Technology in Artificial Intelligence and Machine Learning

CGPA: 7.83 / 10.00

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Certified: Azure AI Engineer Associate
- 3rd Rank – Smart India Hackathon 2024 (Internal Round)
- Solved 250+ Data Structures and Algorithms problems on LeetCode
